# Book-Proposal Form

We are interested to hear from authors who are looking to publish books in astronomy and astrophysics.

This form is intended as a guide to help build your proposal. Please supply as much detail as possible because it will help to assess the material accurately.

**[iopublishing.org/books/aas](http://iopublishing.org/books/aas)**

## Your proposed book

Tentative title

Please describe the subject and scope of your book. Give as much detail as is necessary to give a good understanding of the book and the approach you plan to take. Please highlight any special or unique features.

Why do you believe the book is needed?

Please list up to five key features of your proposed book.

1

2

3

4

5

Since it is an e-first books programme we are interested in including multimedia content where it supports the book. Please supply details of any multimedia that you intend to include and how it supports the work.

Which one of the following best describes your book?

- A review:** a broad treatment of the discipline accessible to most people working in or entering the field.
- A monograph:** a detailed treatment on a specific theme.
- A handbook:** a compilation of key information and principles.
- An advanced textbook:** a book specifically designed to accompany courses taught at graduate level, or offered at conferences or through professional bodies.

## The Audience

### Primary readership

For what audience will this book be a must read?

### Secondary readership

For what audience will this book be a might read or a related reading?

Other expected audiences

## The Author

Please provide some personal information, including a short biography and contact details.

Title: \_\_\_\_\_

Forename: \_\_\_\_\_

Surname: \_\_\_\_\_

Institute/company: \_\_\_\_\_
