About IOPscience

IOPscience is an online service for journal content published by [IOP Publishing](#). IOPscience embraces innovative technologies to make it easier for researchers to access scientific, technical and medical content.

What makes IOPscience different?

IOPscience has been designed to make it easy for researchers to discover relevant content and manage their research information.

With IOPscience you can:

- **Speed up your research:** find relevant content quickly with enhanced search filtering
- **Save time:** re-run previous searches, tagging your favorite articles
- **Keep up to date:** receive RSS feeds and email alerts when new content is published
- **Access more content:** view articles plus preprints and news
- **Interact and share:** embrace social bookmarking to share articles
- **Discover related research:** explore relevant articles based on subject classification codes

Open access

IOP Publishing endorses the goal of universal access to research in the physical sciences

Visit our [Open Physics](#) site to learn more about the ways we are supporting open access to enable wider and faster access to physical sciences research.

Open access options at IOP Publishing

IOP Publishing provides a range of options to enable authors to publish their work on an open access basis, with all of our journals ensuring the same high-standard of peer review and publication.

Many institutions and research funders have stated policies on open access and we advise authors check these before submitting an article. Information on policies at some institutions and funders can be found at [SHERPA Juliet](#) or [ROARMAP](#).

Gold open access

Authors can make their final published article immediately free to read and reuse by others in all of IOP Publishing's primary research journals and many of the journals we publish on behalf of our society partners.

We publish a range of [fully open access journals](#) or provide the option to publish under an open access licence in most of our subscription-based journals.

All authors publishing on an open access basis in IOP Publishing's journals retain copyright and publish under a [CC-BY licence](#).

Green open access

Authors publishing in one of IOP Publishing's subscription-based journals can archive the accepted version of their article on a personal website immediately or on an institutional or subject repository 12 months after publication. A preprint of the article can be posted at any time on non-commercial repositories or preprint servers such as arXiv. [Further information about green open access](#).

Find out more about open access at IOP Publishing

[Fully open access journals](#)

[Hybrid open access journals](#)

[Transformative and institutional open access agreements](#)

CONFERENCE SERIES

The open-access *IOP Conference Series* provides a fast, versatile and cost-effective proceedings publication service for your conference. Proceedings are an important part of the scientific record, documenting and preserving work presented at conferences worldwide.

Key publishing subject areas include: physics, materials science, environmental science, bioscience, engineering, computational science and mathematics.

Effective Science Communication (Second Edition)

A practical guide to surviving as a scientist

En diferentes formatos

Download ebook

Authors
Sam Illingworth and
Grant Allen

Published
May 2020

Being a scientist in the 21st century can be extremely demanding. In addition to conducting exceptional research we are expected to communicate it effectively to a variety of audiences, from scientists and students to policymakers and press officers. This book provides a roadmap for how to disseminate your research findings in an engaging manner via a range of channels, such as scientific publications, press releases, social media and outreach. Furthermore, by providing advice and worked examples on how to fund and publish your research, develop additional skills and support inclusive practices, this book provides a comprehensive handbook for how to be a successful scientist. This second edition brings the text up to date and includes additional material, while retaining the combination of clear insight and practical advice that made the first edition essential.

Translation with Editing

Don't get lost in translation! Our academic translators and editors offer subject-specific expertise and superior editing skills to ensure that your manuscript accurately conveys every nuance of your research in perfect scientific English to a global audience. Our aim is simple: deliver a manuscript that journal editors, reviewers and readers find indistinguishable from those written by native English speakers.

We offer subject-specific translation with English Editing for the following language pairs.

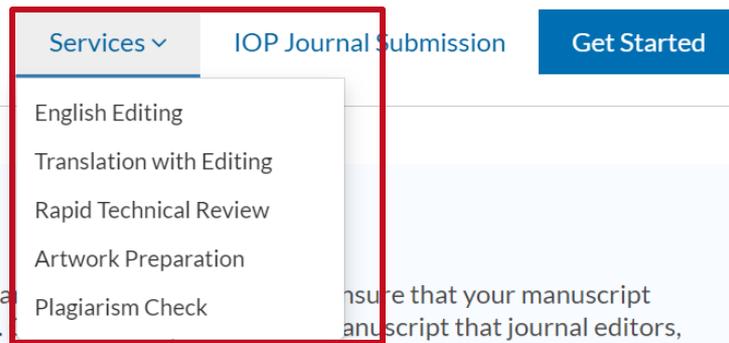

- Traditional or Simplified Chinese to English
- Japanese to English
- Spanish to English
- Brazilian Portuguese to English
- Korean to English
- Turkish to English

Abstract

We analyze the evolution of the scientific consensus on anthropogenic global warming (AGW) in the peer-reviewed scientific literature, examining 11 944 climate abstracts from 1991–2011 matching the topics 'global climate change' or 'global warming'. We find that 66.4% of abstracts expressed no position on AGW, 32.6%

Summary Citations Citing research categories

This is the public page for a publication record in Dimensions, a free research insights platform that brings together information about funding, scholarly outputs, policy, patents and grants.

This publication in *Environmental Research Letters* has been cited **541 times**. 27% of its citations have been received in the past two years, which is **higher than you might expect**, suggesting that it is currently receiving a lot of interest.

Compared to other publications in the same field, **this publication is extremely highly cited** and has received approximately **1502 times more citations** than average.

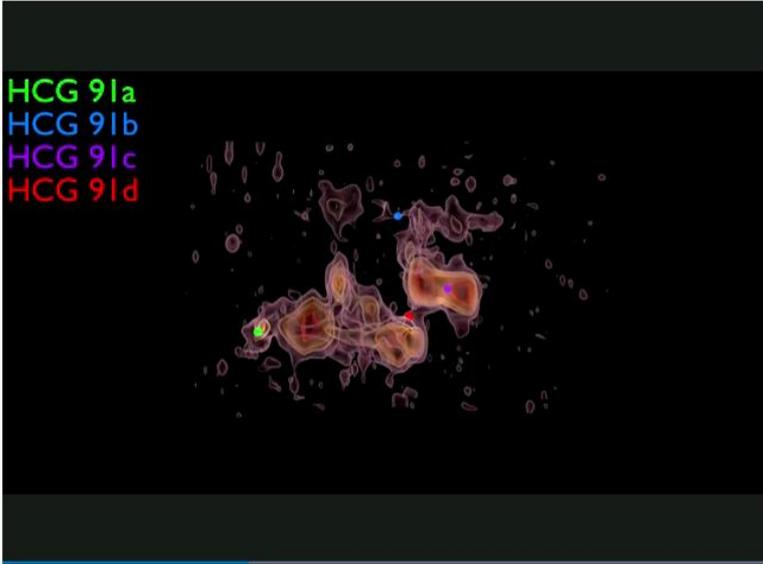

Figure 5.

Final BLENDER rendered view of the H I iso-intensity contours in HCG 91 observed by the VLA (first exported to X3D using MAYAVI) generated using the PYTHON script provided as supplementary material to this article. An [animation](#) of this figure is available.

Figuras Interactivas

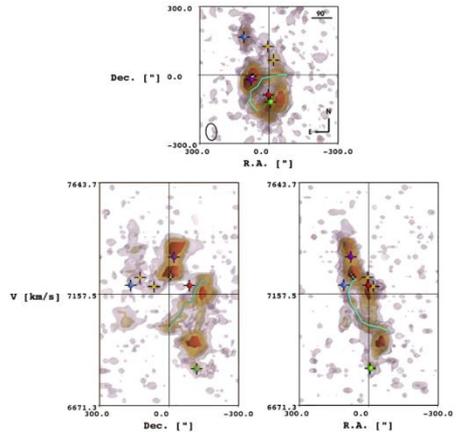

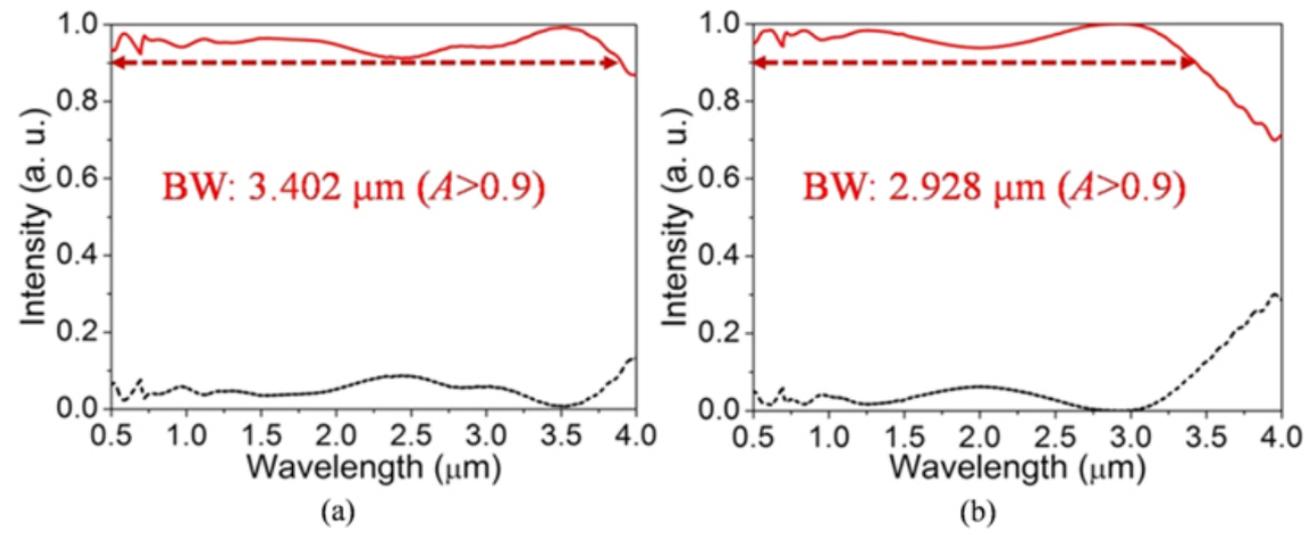

Figure 3. H I gas distribution and kinematics of the compact group of galaxies HCG 91 observed by the VLA. Individual intensity iso-contours at 1.3, 2.5, 3.5, and 6.0 mJy/beam are fitted in 3D inside the datacube before being projected along top-front-side projections. The innermost contour is fully opaque, while the others are set at 80% transparency to enable a *see-through* effect. The galaxies HCG 91a, b, c, and d are marked with green, blue, purple, and red spheres respectively. A large tidal tail originating to the southeast of HCG 91a is traced inside the 3D cube with a cyan line, and other elements of interest are marked with white and yellow cubes (see Vogt et al. 2015 for details). In the top panel, the black ellipse traces the beam size and orientation associated with the VLA data. An interactive version of this figure is accessible online as an interactive HTML document.

MathJax

$$f(a) = \frac{1}{2\pi i} \oint_{\gamma} \frac{f(z)}{z-a} dz$$

$$H_0 = \sum_{\lambda,i} E_i^\lambda a_{\lambda,i}^\dagger a_{\lambda,i} + \sum_Q \hbar \omega_Q \left(B_Q^\dagger B_Q + \frac{1}{2} \right) \quad (1)$$

as the non-interacting parts of the carrier–photon system, where $a_{\lambda,i}^\dagger$ and $a_{\lambda,i}$ are the creation and annihilation operators for electronic states, respectively. The corresponding operators for the photon, with a general mode index Q and energy $\hbar \omega_Q$, are B_Q^\dagger and B_Q .

The carrier–carrier interaction is given by the Coulomb term

$$H_C = \sum_{\lambda,\lambda'} \sum_{i,j,k,l} V_{i,j;k,l}^{\lambda,\lambda'} a_{\lambda,i}^\dagger a_{\lambda',j}^\dagger a_{\lambda',k} a_{\lambda,l} \quad (2)$$

and the light–matter interaction is given by the dipole Hamiltonian

$$H_D = - \sum_{\lambda} \sum_{Q,i,j} [F_{\lambda;i,j}^Q B_Q + (F_{\lambda;j,i}^Q)^* B_Q^\dagger] a_{\lambda,i}^\dagger a_{\lambda,j} \quad (3)$$

The interaction-matrix elements in these are

$$V_{i,j;k,l}^{\lambda,\lambda'} = \frac{e^2}{4\pi\epsilon} \int d^3r d^3r' \frac{\xi_{\lambda,i}^*(\mathbf{r}) \xi_{\lambda',j}^*(\mathbf{r}') \xi_{\lambda',k}(\mathbf{r}') \xi_{\lambda,l}(\mathbf{r})}{|\mathbf{r} - \mathbf{r}'|}, \quad (4)$$

$$F_{\lambda;i,j}^Q = i\epsilon_Q \mathbf{d}_{i,j}^{\lambda,\lambda} \cdot \int d^3r \xi_{\lambda,i}^*(\mathbf{r}) \mathbf{u}_Q(\mathbf{r}) \xi_{\lambda,j}(\mathbf{r}), \quad (5)$$

LIBRARIANS

IOP Publishing values the key role you, as a librarian, play in providing access to research resources. We want to work with you to support you in your role and to facilitate collaboration between library, publisher and researcher.

Journals

We publish more than 85 journals and conference proceedings covering a wide range of physical sciences and related disciplines. Around half of these are published jointly with or on behalf of a society or research organisation that we are proud has chosen IOP Publishing as their publishing partner.

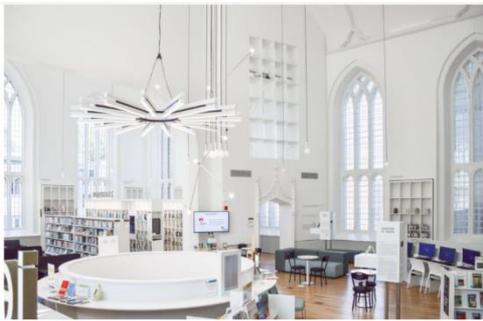

[More information about Journals](#)

Books

IOP ebooks is the essential collection of books developed by a society publisher for the scientific community. We give our authors' voices prominence through innovative publishing techniques to advance knowledge across multiple key subject areas, while empowering libraries to take of the content that they purchase to best serve the needs of their users.

[More information about Books](#)

Ordering

For all subscription queries, please contact your sales representative or subscription agent. Alternatively, you can e-mail customerservices@iopublishing.org

IOP ebooks

For those wishing to purchase IOP ebooks packages on behalf of an institution or organisation, **prices can be found here**. To discuss further purchasing options, please contact the sales representative for your area.

[Download the 2021 IOP Publishing Catalogue](#)

[Download the text book catalog](#)

New for 2021

New Journals added to subscription packages

Following feedback from our communities on the need for new journals dedicated to emerging areas, we launched *Plasma Research Express* and *Electronic Structure* in 2018. These titles will be added to IOPscience extra for the 2021 subscription year.

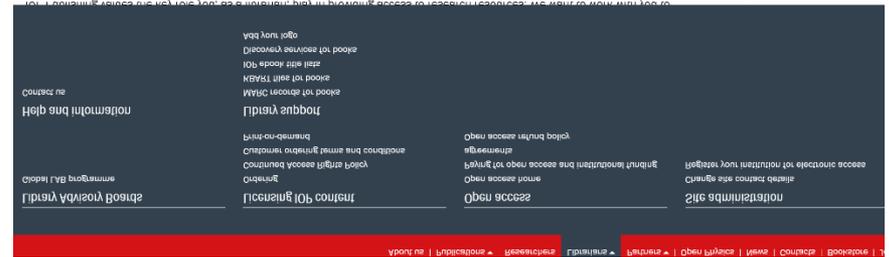

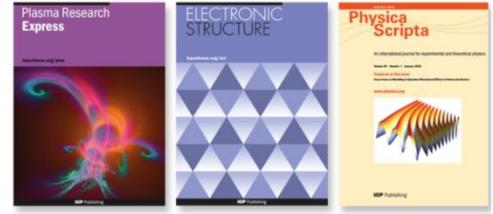

E-only titles

From 2021 onwards, *Physica Scripta* and *Publications of the Astronomical Society of the Pacific* will no longer be available in print format. Libraries that currently subscribe to the print and electronic versions of these journals will be offered an electronic-only renewal for 2021.

Free to read in 2021

We launched several journals in 2019 which will remain free to read throughout 2021 as a further benefit to the community:

- *Functional Composites and Structures*
- *Progress in Biomedical Engineering*
