### About IOPscience

IOPscience is an online service for journal content published by <u>IOP Publishing</u>. IOPscience embraces innovative technologies to make it easier for researchers to access scientific, technical and medical content.

#### What makes IOPscience different?

IOPscience has been designed to make it easy for researchers to discover relevant content and manage their research information.

With IOPscience you can:

- Speed up your research: find relevant content quickly with enhanced search filtering
- Save time: re-run previous searches, tagging your favorite articles
- Keep up to date: receive RSS feeds and email alerts when new content is published
- Access more content: view articles plus preprints and news
- Interact and share: embrace social bookmarking to share articles
- Discourse indicate a second sec

Títulos por parceiro editorial

#### **Open access**

## Ao clicar em Open access (acesso aberto), encontraremos a política de acesso aberto da IOP e tudo o que você deseja saber sobre ela.

#### Open access

IOP Publishing endorses the goal of universal access to research in the physical sciences

Visit our <u>Open Physics</u> site to learn more about the ways we are supporting open access to enable wider and faster access to physical sciences research.

#### Open access options at IOP Publishing

IOP Publishing provides a range of options to enable authors to publish their work on an open access basis, with all of our journals ensuring the same high-standard of peer review and publication.

Many institutions and research funders have stated policies on open access and we advise authors check these before submitting an article. Information on policies at some institutions and funders can be found at <u>SHERPA Juliet</u> or <u>ROARMAP</u>.

#### Gold open access

Authors can make their final published article immediately free to read and reuse by others in all of IOP Publishing's primary research journals and many of the journals we publish on behalf of our society partners.

We publish a range of <u>fully open access journals</u> or provide the option to publish under an open access licence in most of our subscription-based journals.

All authors publishing on an open access basis in IOP Publishing's journals retain copyright and publish under a <u>CC-BY licence</u>.

#### Green open access

Authors publishing in one of IOP Publishing's subscription-based journals can archive the accepted version of their article on a personal website immediately or on an institutional or subject repository 12 months after publication. A preprint of the article can be posted at any time on non-commercial repositories or preprint servers such as arXiv. Further information about green open access.

Abstract

## **Resumo do vídeo** (quando o periódico e o autor permitem)

We analyze the evolution of the scientific consensus on anthropogenic global warming (AGW) in the peer-reviewed scientific literature, examining 11 944 climate abstracts from 1991– 2011 matching the topics 'global climate change' or 'global warming'. We find that 66.4% of abstracts expressed no position on AGW, 32.6%

#### Figure 5.

Final BLENDER rendered view of the H I iso-intensity contours in HCG 91 observed by the VLA (first exported to X3D using MAYAVI) generated using the PYTHON script provided as supplementary material to this article. An animation of this figure is available.

#### **Figuras interativas**

Figure 3. H i gas distribution and kinematics of the compact group of galaxies HCG 91 observed by the VLA. Individual intensity iso-contours at 13, 2.5, 3.5, and 6.0 mJy/beam are fitted in 3D inside the datacube before being projected along top-front-side projections. The innermost contour is fully opaque, while the others are set at 80% transparency to enable a set-through effect. The galaxies HCG 91a, b, c, and d are marked with green, blue, purple, and red spheres, respectively. A large tidal tail originating to the southersof HCG 91a is traced inside the 3D cube with a cyan line, and other elements of interest are marked with white and yellow cubes (see Vogt et al. 2015 for details). In the top panel, the black ellipse traces the beam size and orientation associated with the VLA data. An interactive version of this figure is accessible online as an interactive HTML document.

### Fórmulas em MathJax

## **MathJax**

$$f\left(a
ight)=rac{1}{2\pi i}\oint_{\gamma}rac{f(z)}{z-a}dz$$

$$H_0 = \sum_{\lambda,i} E_i^{\lambda} a_{\lambda,i}^{\dagger} a_{\lambda,i} + \sum_{Q} \hbar \omega_Q \left( B_Q^{\dagger} B_Q + \frac{1}{2} \right)$$
(1)

as the non-interacting parts of the carrier-photon system, where  $a^{\dagger}_{A,i}$  and  $a_{A,i}$  are the creation and annihilation operators for electronic states, respectively. The corresponding operators for the photon, with a general mode index Q and energy  $\hbar \omega_Q$ , are  $B^{\dagger}_Q$  and  $B_Q$ . The carrier-carrier interaction is given by the Coulomb term

$$H_{\rm C} = \sum_{\lambda,\lambda'} \sum_{i,j,k,l} V_{i,j;k,l}^{\lambda,\lambda'} a_{\lambda,i}^{\dagger} a_{\lambda',j}^{\dagger} a_{\lambda',k} a_{\lambda,l}$$
(2)

and the light-matter interaction is given by the dipole Hamiltonian

$$H_{\rm D} = -\sum_{\lambda} \sum_{Q,i,j} [F^Q_{\lambda;i,j} B_Q + (F^Q_{\bar{\lambda};j,i})^* B^*_Q] a^*_{\lambda,i} a_{\bar{\lambda},j}.$$
(3)

The interaction-matrix elements in these are

$$V_{i,j;k,l}^{\lambda,\lambda'} = \frac{e^2}{4\pi\varepsilon} \int d^3r d^3r' \frac{\xi_{\lambda,i}^*(\mathbf{r})\,\xi_{\lambda',j}^*(\mathbf{r}')\,\xi_{\lambda',k}(\mathbf{r}')\,\xi_{\lambda,l}(\mathbf{r})}{|\mathbf{r}-\mathbf{r}'|},$$

$$F_{\lambda;i,j}^{Q} = i\mathcal{E}_{Q}d_{i,j}^{\lambda,\tilde{\lambda}} \cdot \int d^3r \,\xi_{\lambda,i}^*(\mathbf{r})\,u_{Q}(\mathbf{r})\,\xi_{\tilde{\lambda},j}(\mathbf{r}),$$
(4)

### ALÉM DISSO: Serviços de bibliotecários (Librarians services)

## Visitando ioppublishing.org/librarians/, o bibliotecário encontrará todas as informações de seu interesse, como o catálogo, recursos de apoio para bibliotecários, etc.

About us | Publications - | Researchers | Librarians - | Partners - | Open Physics | News | Contacts | Bookstore | Jobs -

#### LIBRARIANS

IOP Publishing values the key role you, as a librarian, play in providing access to research resources. We want to work with you to support you in your role and to facilitate collaboration between library, publisher and researcher.

#### Journals

We publish more than 85 journals and conference proceedings covering a wide range of physical sciences and related disciplines. Around half of these are published jointly with or on behalf of a society or research organisation that we are proud has chosen IOP Publishing as their publishing partner.

#### More information about Journals

#### Books

IOP ebooks is the essential collection of books developed by a society publisher for the scientific community. We give our authors' voices m prominence through innovative publishing techniques to advance knr across multiple key subject areas, while empowering libraries to take of the content that they purchase to best serve the needs of their use

#### New for 2021

#### New journals added to subscription packages

Following feedback from our communities on the need for new journals dedicated to emerging areas, we launched *Plasma Research Express* and *Electronic Structure* in 2018. These titles will be added to IOPscience extra for the 2021 subscription year.

#### E-only titles

From 2021 onwards, *Physica Scripta* and *Publications of the Astronomical* Society of the Pacific will no longer be available in print format. Libraries that currently subscribe to the print and electronic versions of these journals will be offered an electronic-only renewal for 2021.

#### Free to read in 2021

We launched several journals in 2019 which will remain free to read throughout 2021 as a further benefit to the community:

- Functional Composites and Structures
- -

For all subscription queries, please contact your sales representative or subscription agent. Alternatively, you can e-mail customerservices@ioppublishing.org

#### IOP ebooks

For those wishing to purchase IOP ebooks packages on behalf of an institution or organisation, prices can be found here. To discuss further purchasing options, please contact the sales representative for your area.
