

The essential ebooks collection developed by a society publisher

We give our authors' voices more prominence through innovative publishing techniques to advance knowledge across multiple key subject areas, while empowering libraries to take control of the content that they purchase to best serve the needs of their users.

Why choose IOP ebooks for your library?

Leading authors

We work with pioneering authors to educate, enhance knowledge and connect readers to cutting edge work in their field

Budget management

Take control of your library budget with a range of flexible acquisition options, including a one-time perpetual purchase model

Broad subject coverage

We ensure relevancy by covering a wide range of subject areas which are curated in partnership with world leading scientific societies

Something for everyone

We offer research and reference texts, course texts and broad-interest titles to meet the needs of all your users

More choice for researchers

All ebook chapters can be downloaded in EPUB3, HTML and PDF. We also offer whole-book downloads

Bring your readers closer to research

Interactive figures, author webinars and fully embedded video content for an enriched research experience

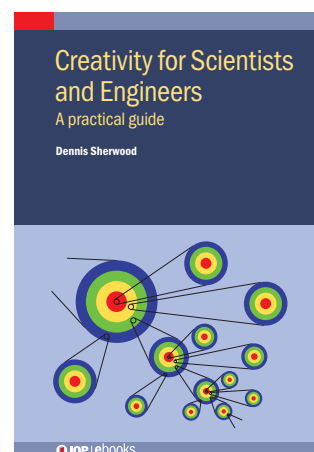

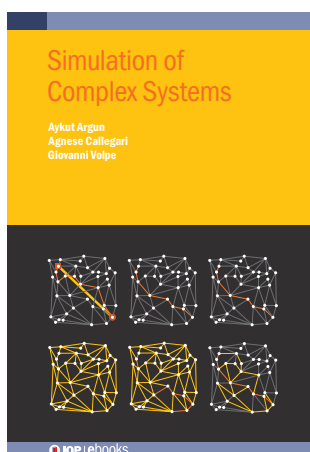

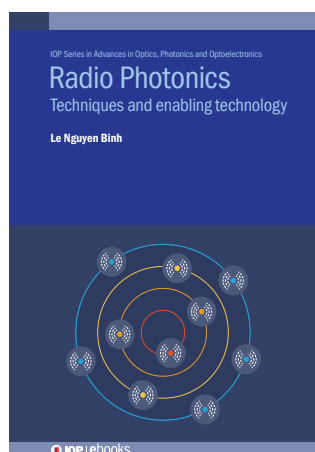

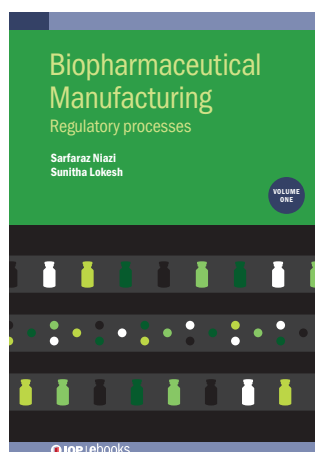

Accessible

Multiple formats available to support reading on all devices, as well as compatibility with screen readers, such as JAWS, NVDA and Apple's VoiceOver

Discoverable

Smarter searching and optimal discovery through free MARC records and extensive indexing

Acquisition options

Full collections

- Best value for your library budget
- One-time perpetual purchase with no maintenance fees
- Includes all book types across multiple subject areas
- All books are DRM-free so your users don't have to wait for the books they need
- Something for everyone at your library

Evidence based acquisition

For an upfront fee, your users will gain temporary reading rights to a selection of ebooks for a fixed period of time so they can explore the full range of titles without restrictions. Your full fee is then applied to the purchase price so your library can acquire the ebooks that best suit the needs of your users in perpetuity.

Pick and choose

- Allows you to build bespoke collections based on researcher needs
- Choose any books from our full range of published titles
- Build a specific specialist interest collection
- Purchase titles recommended by your researchers or based on a specific research project at your institution
- Minimum order value of £1500, which equates to approximately 15-20 titles

Subject collection purchases

In response to library demand, we have made our most popular titles in specific subject areas available to buy in one collection for the first time. Whether your institution specialises in education, environmental sciences, biophysics or materials, we can offer your researchers leading texts dedicated to their discipline for a one-time fee.

Pricing and ordering

To discuss institutional purchasing options, please contact your regional sales representative or e-mail us at library.relations@iopublishing.org.
